## Profile:

---

Creative and detail-oriented Front-End Developer with over 4 years of experience building responsive, user-friendly websites. Skilled in modern frameworks like React and Next.js. Solid understanding of back-end technologies such as Node.js, NestJs, and RESTful APIs, allowing seamless front-end and back-end collaboration. Experienced in Agile environments, translating designs into high-quality, optimized code while staying up-to-date with industry trends and best practices.

### My Strong Suits:

- Problem-Solving: Skilled in finding effective solutions to complex challenges.
- Attention to Detail: Ensures accuracy and quality in all aspects of work.
- Adaptability: Quick to learn and adjust to new environments and tools.
- Collaboration: Strong team player, working well with cross-functional teams.
- Communication: Clear in conveying ideas and progress to diverse stakeholders.
- Time Management: Able to manage multiple priorities and meet deadlines.
- Continuous Learning: Dedicated to staying updated with industry trends.
